

# Helpful information if you get tested for COVID19

## **What if I need medication refills?**

Stay home. Identify if you have a friend or family member that can pick-up medication refills. When delivering to your home, just handoff medication, do not invite them into the home. Wear a mask during handoff. If you use UCNW Pharmacy – maybe we can get them for you while you are here today.

## **What if I have other appointments such as a dental appointment?**

Stay home. Call and reschedule your appointment for 2-4 weeks in the future. If the appointment is emergent, call the provider/clinic and let them know you have been tested for COVID-19. Ask what steps they want you to do.

## **What if I need groceries?**

Stay home. Identify if you have a friend or family member that can pick-up groceries. When delivering to your home, just handoff groceries, do not invite them into the home. Or consider using a pick-up or delivery service. Wear a mask when delivery person arrives
